-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Amendment***

1. This Office Action is responsive to the Request for Reconsideration originally filed 1/7/04, but lost at USPTO, and resubmitted on 5/3/04.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-10 and 12-33 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,306,563 to Xu et al. (Xu) for the reasons of record as set forth in paragraph 1 of the Office Action dated 7/31/00, and as further discussed below.

### ***Response to Arguments***

3. Applicant's arguments filed 1/7/04 have been fully considered but they are not persuasive. Applicant argues that Xu fails to meet the requirements of 35 USC 112 in regard to the use of non-contact exposure and the use of a buffer layer. However, as recognized by Applicant, Xu discloses both limitations within the text of the patent. US Patents have a high presumption of validity. See MPEP 1701.

Furthermore, Applicant argues that, unlike Xu, the instant application teaches the method by which the non-contact photomask is properly employed to obtain the desired result on page 7, line 21 to page 8, line 1 of the specification, wherein the photomask is held 500 micrometers or more away from the surface during deoxygenation, and then is lowered to no more than 20 micrometers, preferably more than 5 micrometers from the surface for exposure. However, this is an unclaimed limitation.

Similarly, Applicant argues that the instant invention provides a detailed discussion on page 10, line 14 to page 12, line 21 of the buffer layer, its function, and how to select the material and fabricate the layer, such as the difference of the index of the core and the buffer or the buffer layer thickness. However, these are unclaimed limitations.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
